

SOLID STATE LIGHTING

Northeast Energy Efficiency Partnerships TINSSL Flash

New GATEWAY Demonstration Report [Portland LED Street Lighting](#)

The U.S. Department of Energy (DOE) recently published a final demonstration report for the light-emitting diode (LED) residential street lighting project in Portland, Oregon. The report provides an overview of project results including lighting performance, economic performance, and potential energy savings.

The Portland GATEWAY project replaced eight 100-watt (nominal) high-pressure sodium

CALiPER Releases Round 9 Summary Report

[Round 9 Summary Report](#)

Round 9 of DOE's Commercially Available LED Product Evaluation and Reporting Project testing focused primarily on recessed downlights; 2'x2' troffers and flat panel luminaires; 4' linear replacement lamps; and small replacement lamps including MR16, PAR, and R lamps, A-lamps, and candelabras.

Detailed Round 9 reports will come available shortly and can

NEEP Unveils New TINSSL Website

[NEEP.org](#)

Northeast Energy Efficiency Partnerships recently unveiled its redesigned website, [NEEP.org](#)

The Technical Information Network for Solid-State Lighting ([TINSSL](#)) webpage now includes an "Overview" and a "Data, Resources & More" tab within the TINSSL webpage for improved navigation and organization of the solid-state lighting information.
