

The mission of the Collaborative for High Performance Schools is to improve the quality of education for our nation's schoolchildren by assisting school districts with the design, construction, modernization and operation of high performance schools. CHPS schools are environmentally responsible, healthy and efficient.

generation of
healthy, green,
high performance
schools

CHPS Registered

The Collaborative for High Performance Schools (CHPS), invites you to join CHPS Registered, the free membership program for schools and school districts. Gain all the benefits of CHPS membership, including an all-access pass to the suite of CHPS tools and resources.

Schools and Districts

What is CHPS Registered?

CHPS Registered is a free membership program for schools and school districts. Become a member to gain access to the tools and resources needed to design, construct, and modernize high performance educational facilities.

The goal of CHPS Registered is to help schools commit to building high performance educational facilities, track their progress and receive recognition on their accomplishments.

Thinking of High Performance?

Ensure that greener, healthier schools are being built today for students in your district. Take these steps towards building high performance schools with the CHPS Registered program.

STEP 3:

Pass a CHPS High Performance Resolution (optional)

- Standardize high performance policies and priorities throughout your school district
- Gain leverage with vendors and suppliers
- Earn CHPS points towards certification on CHPS projects
- Receive recognition with CHPS logo

STEP 2:

Submit Annual Reports to CHPS (required)

- Renew CHPS Registered membership by submitting Annual Report to CHPS
- Continue to receive benefits and member discounts
- Build support for high performance schools

STEP 1:

Join CHPS Registered free!

- Benefit from access to CHPS high performance tools and resources
- Receive member discounts on CHPS materials, services and events

The Fern Hill School, in Tacoma, WA, used the WA-CHPS 2004 Criteria to restore this historic school building

The CHPS Impact

- There are **46** completed CHPS schools across America.
- Over **300** school projects are underway seeking CHPS recognition.
- **35** school districts, with over **1.5** million total students enrolled, have committed to building new schools or modernizing to the CHPS high performance building standard.
- **11** states have adapted state or region-specific CHPS high performance school building Criteria.
- **4** of these states provide special funding for CHPS schools and the federal government has included CHPS in pending legislation.

Become a part of a Collaborative that is:

authoritative

The six-volume CHPS Best Practices Manual is the definitive guide on how to plan, design, operate, maintain and commission your high performance school.

visionary

CHPS is the nation's first green building rating program established specifically for school buildings.

necessary

According to the Healthy Schools Network, over half of the fifty-three million children attending school in the US learn in “unhealthy” school facilities.

Maywood Academy, serving 1500 high school students, attained the highest CA-CHPS score for a public school
